APPLICATION AND AGREEMENT FOR 2026 WATER SERVICE

WATER DELIVERIES WILL BE BASED ON 100% WATER SUPPLY FOR 2026

The Board of Directors have set the 2026 water rate at \$95.00 per AF. Before any water is delivered, all water users must complete and file an application for Agricultural Water or Municipal and Industrial Water (M&I) indicating the total amount of water the applicant will need. There will be no water delivered to property that has a delinquent account, or has not submitted a completed application.

As a condition for water service, the applicant and landowner agree to comply fully with the District's Rules and Regulations, policies, and with applicable State and Federal laws, orders, and regulations. The applicant and landowner agree that they will assume full responsibility and liability for the use or misuse of water delivered to their property(ies) including all damages to the adjoining property due to failure to adequately control water delivered. It is further agreed that the applicant's and landowner's signature(s) hereon signify that they have read and understood the District's Rules and Regulations and that they accept the terms and conditions for water service from the District. The landowner further agrees that any charges for water used on their property by them or their tenant, for which full payment is not received, may be added on their Tehama County property tax bill and hereby consents to that. If a **tenant** is using your land, there must be a current Owner Tenant Agreement plus the Water Application on file with the Corning Water District before any water will be billed to your tenant. **It is understood that the owner is responsible for all water charges incurred for water or related services, even if billed to the tenant.**

Please submit an application on or before May 1, 2026
